

**Designer Jack Nicklaus**

Located in the highest part of the **Vista Vallarta golf resort**, this golf course offers a beautiful view of the entire Bay of Banderas, as it is a refuge for the regional flora. It has green meadows, huge trees and natural rivers complementing the beautiful design made by **Jack Nicklaus**.

Considered by many local golfers and experts as the best in **Puerto Vallarta** and among the top 10 golf courses in **Mexico** for its difficulty and pleasant atmosphere, its wide fairways invite you to play this sport and forget about stress. **The Nicklaus course** is characterized by challenging you to correct your shots and obtain a good score at the end of each round.

Visit the two par 5's (holes 3 and 12), the most spectacular of this golf course. It is worth mentioning that there is a combination of two very difficult holes, Par 4 (holes 6 and 14) that will bewilder even the most experienced golfer, due to their distance and aggressiveness at first sight. The help of a caddy is recommended to indicate the fall of the greens, which is not mandatory. It has hosted three important tournaments of international stature, the EMC Champion Ship in 2002, Seniors PGA Blue Agave in 2005 and in 2007 a tournament of the universities of the United States.
